

February 12, 2025

Members of the Wisconsin Congressional Delegation:

We write to you on behalf of 97 Wisconsin organizations, including counties, tribes, health care providers, advocates, and those representing impacted populations, concerned about the impact of major changes to Medicaid being considered at the federal level. **Our request is simple: Protect Medicaid.**

A [recently released list](#) includes up to \$2.3 trillion in cuts to the federal Medicaid program during this session of Congress. With **almost 1 in 5 Wisconsinites receiving health care coverage and/or long term care services** through one of Wisconsin's Medicaid programs, the ramifications of any of these cuts would be significant across all populations. Wisconsin's 19 Medicaid-funded programs currently provide services to:

- 1 in 3 Wisconsin children across both rural and metro areas;
- 1 in 3 Wisconsinites with disabilities;
- 4 in 7 Wisconsin nursing home residents;
- 1 in 6 Medicare beneficiaries in Wisconsin; and
- 1 in 7 Wisconsin adults ages 19-64, more than half of whom are parents/caretakers

In addition to the number of Wisconsinites whose health and long term care needs are met through Medicaid, **Wisconsin's workforce would also be significantly impacted.** This would include not only low-income Wisconsin workers who rely on Medicaid for their primary health care coverage, but also the health care workforce providing services to Wisconsin's Medicaid recipients through counties, home and community-based services, hospitals, nursing homes, and many other employers.

**Wisconsin cannot afford these proposed cuts to Medicaid funding.** The long term impact of rising health care costs and hit to the Wisconsin workforce could not be absorbed by the Wisconsin state budget even with substantial tax increases. Nor could they be absorbed by Wisconsinites whose health and livelihoods would be at stake were these cuts implemented.

Thank you for your consideration, and please reach out with questions to any of the organizations listed below. Organizations located in your district and/or serving your constituents are ready to share their unique concerns.

Respectfully,
