

October 2013

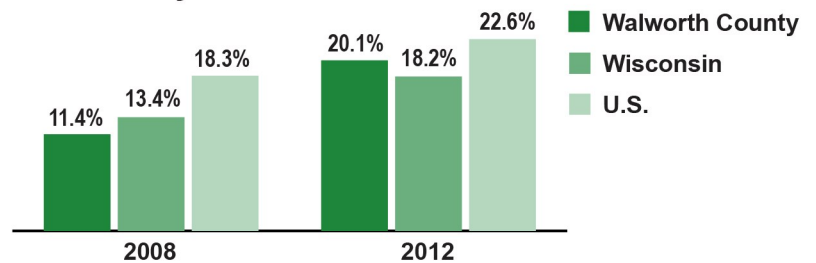

Economic Recovery Slow for Walworth County Families

More People in Poverty, Fewer with Health Insurance

One out of Five Children in Walworth County Now Lives in Poverty

The child poverty rate in Walworth County increased to 20.1% in 2012 from 11.4% in 2008. Walworth County's child poverty rate is higher than the statewide average, which rose to 18.2% in 2012 from 13.4% in 2008. More than 1,900 additional children slipped into poverty in Walworth County between 2008 and 2012, which represents a population greater than the village of Fontana on Lake Geneva.

Households in Walworth County are Making Do with Less

The typical household in Walworth County earned \$7,800 less in 2012 than in 2008. Median household income dropped to \$48,900 in 2012 from \$56,700 in 2008. A typical household in Walworth County earns roughly 4% less than the state and national average.

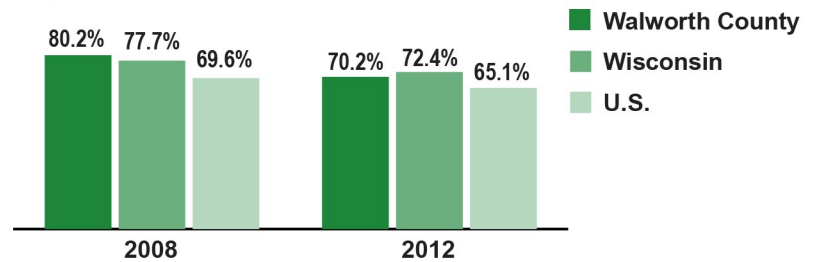

Median Household Income

Fewer People in Walworth County Have Private Health Insurance

The percent of people in Walworth County with private health insurance decreased to 70.2% in 2012 from 80.2% in 2008. The increase in the unemployment rate impacted health insurance coverage, since most families obtain insurance through their employers.

Implementing Health Care Reform Could Significantly Improve Access to Insurance

The percent of Walworth County residents lacking health insurance increased to 10.4% in 2012 from 9.1% in 2008. Both Walworth County and Wisconsin had a much smaller share of their population without health insurance than the national average, but far above the 3.9% rate in Massachusetts. That state implemented health care reforms in 2007 that served as the model for the Affordable Care Act.

How to Help Walworth County Families Affected by the Recession

Families in Walworth County are still feeling the effects of the recession, when steep job loss pushed many residents into poverty and resulted in the loss of health care coverage. Walworth County's median household income has dropped below the national average, and far too many families are struggling to make ends meet or going without health insurance.

It is discouraging that three years into the recovery, poverty rates and income remain stubbornly low, and the uninsured rate remains high. But there are some basic steps we can take to help boost the local economy and help Walworth County families pull themselves out of poverty, including:

- Increase the minimum wage and then adjust it each year for inflation.
- Give businesses access to a well-trained workforce by providing schools and colleges the resources they need to prepare

students for employment. And provide students with the financial aid they need to succeed in their educational efforts.

- Adjust the Homestead tax credit for inflation each year, like the rest of the tax code.
- Create a strong public/private partnership to help Wisconsinites get insurance through the Affordable Care Act and to help reach the Governor's target of cutting the uninsured rate in half.
- Maintain funding for safety net programs such as food stamps and federal unemployment benefits that help lift families out of poverty and pump money into the still sluggish economy.
- Increase school readiness by improving children's early learning and development opportunities through high-quality child care, early education, home visiting, and parent engagement.
